

2026 Safety Initiatives

Mpls DID is committed to supporting public safety and community outreach downtown through a holistic approach. In 2026, we will allocate more than \$3M to community-wide public safety efforts and partnerships. This commitment aligns with our core mission, while implementing a multi-faceted approach to meet downtown's public safety, community outreach, and livability needs for the 120+ blocks within our District.

Foundational Safety Efforts

1. Deliver the best integrated safety program in the nation.
2. Build and strengthen connections to each other and to the safety community.
3. Support and provide adequate resources for frontline workers.
4. Prioritize the protection of at-risk community members in violence prevention.

Safety Presence & Response
